Apparel & Accessories To Unite Your Team

# a culture of TRADITION

**Classic Styles** Heritage, reliability and a shared sense of value. Attire for the professional workplace should reflect these priorities while making a stylish impression.

## *getting it* DONE

**Smart Casual Styles** Agility, adaptability and confidence. Dress codes are being deconstructed and many employees now favor a laid-back vibe at work.

## *the* MODERN *worker*

**Trendsetter Styles** Innovation, making waves and breaking new ground. Modern workers thrive on fresh perspectives in both what they do and what they wear.

## THE BUSINESS WORLD HAS CHANGED.

The way we work is more flexible than ever before. Just as we've adapted to a new normal, what we wear today reflects our individual preferences and work styles.

## Different Looks For Different Teams

Employees who talk to customers every day are expected to look professional and buttoned-up. Tidy looks with clean lines win every time.

Not every employee is expected to have face time with customers. Uniforms for back-office workers are built for comfort while still looking put-together.

## Classic Decoration Ideas and Techniques

An EMBROIDERED LOGO on the left chest is a traditional and reliable technique, resulting in a tried-and-true classic look.

HEAT TRANSFERS can go where embroidered logos can't, pairing well with lightweight and semi-sheer fabrics.

### Tips:

- To maintain waterproofing when embroidering outerwear, use a sealed backing.
- Subtle tone-on-tone transfers express the brand confidently.
- Keep it classic by keeping decoration colors to a minimum – one or two colors convey an impression of professionalism.

## Different Looks For Different Teams

For the sales and marketing teams who are out there making the deals that make it all possible, savvy looks fit the bill.

For the developers, designers and talent who work hard behind the scenes, the name of the game is relaxed, comfortable and expressive.

## Trendsetter Decoration Ideas and Techniques

Use SILICONE TRANSFERS for lettering or single-color logos with a stylish matte finish, complementing the look of smooth fabrics.

Use HEAT TRANSFER VINYL to apply the company logo prominently and add team logos in other locations on the shirt.

### Tips:

- Complement existing garment colors, designs and brand logos with decoration techniques that fit what's already there.
- Add a QR code for some play-along interactivity.
- Metallic options in molded heat transfers pop nicely.
- Add a molded emblem zipper pull to elevate the look of outerwear or bags.
